FOR IMMEDIATE RELEASE

Innovative Wastewater Treatment Service Expands its Network Into New Mexico and Arizona

RMCI, Inc. joins the EnBiorganic Technologies network of licensees to offer cutting-edge wastewater treatment technology options

Las Vegas, NV May 2021– EnBiorganic Technologies, innovator and provider of patented turn-key autonomous systems for the natural, biological treatment of wastewater is pleased to welcome RMCI, Inc. of Albuquerque, New Mexico to its licensed network of EBS-Di Installers and service providers.

Providing general contracting services throughout the Southwest for both public and private sector clients since 1990, RMCI is a recognized and award-winning leader in the construction of water and wastewater treatment plants, large-scale industrial projects, storm and sanitary sewer systems and large diameter utilities. RMCI will be implementing and delivering EnBiorganic's (TAAS) Treatment As A Service solution to wastewater utilities and commercial entities throughout Arizona and New Mexico. "As a developer of treatment facilities and seeing first-hand what challenges they encounter, being able to bring a solution like this to our region is an exciting opportunity for our organization. We are looking forward to introducing this technology and offering the results that it has been delivering in other parts of North America to our customers in the Southwest," shares Clay Blair, President/CEO of RMCI, Inc.

"We are proud to have an award-winning firm like RMCI join us in our mission to overcome water treatment challenges and reduce operational costs," shares Darrell Liski, CEO of EnBiorganic Technologies. "Together, we will successfully deliver truly sustainable solutions thru Nature's Remedy | Made Ready."
